

# BEST-IN-CLASS CLAIMS EDITING SAVES YOU MONEY

## Proof is in the savings

Our value-added claims editing services are an important part of delivering sustainable health care costs without negatively impacting the quality of care. Wellmark and Cotiviti meet monthly to review and update payment policies to make sure the processes are the most effective and efficient. As a result, employers can annually see quantifiable savings directly tied to our claims editing processes.

In just three years, we have **saved more than \$400 million** in our claims editing process.

\*Projected based on first six months of savings.

You need to know your health care budget is being spent efficiently and appropriately. At Wellmark, we diligently review all submitted claims before they are paid to make sure you and your employees pay accurately for services received.

## Expert collaboration

For more than 10 years, we've collaborated with **Cotiviti** (formerly Connolly iHealth Technologies) to deploy a uniquely designed claims editing solution that is tailored to Wellmark's provider payment processes and policies.

## A customized approach to claims editing

Your health care dollars are protected by nightly Cotiviti claims reviews specifically designed to meet **Wellmark's claims editing standards in the following key areas:**

### PAYMENT POLICY MANAGEMENT

All professional and outpatient facility claims are reviewed against a library of claims edits and Wellmark payment policies to make sure they are correctly and accurately coded.

### INPATIENT CLAIMS REVIEW SERVICES

A thorough review of inpatient stays is conducted to make sure the services the patient received during their stay are billed appropriately. If not, Cotiviti works with the hospital to correct errors and resubmit the claim.

### INDUSTRY LEADING CROSS-CLAIM REVIEW

Claims submitted by facilities are compared to those submitted by the doctors to make sure services received match the services billed. If they do not match, claims will be adjusted and resubmitted.
