

CHOOSING YOUR PHARMACY NETWORK

Determine the Wellmark Pharmacy Program network that fits your budget and your employees' needs.

THREE OPTIONS OFFERED BY THE WELLMARK PHARMACY PROGRAM RANGE FROM BROAD TO COST-CONTROLLED, WHICH CAN HELP YOU FOCUS YOUR COVERAGE WHERE YOUR EMPLOYEES NEED IT MOST. By selecting a managed network, you can reduce costs and help your employees live healthier by giving them the drug support they need.

A MORE MANAGED NETWORK WILL PROVIDE ADDITIONAL SAVINGS AND LOWER PER MEMBER, PER MONTH (PMPM) COSTS. A key component to adherence is access*, so keep in mind where your employees live. Whether urban or rural, each network aims to have your employees just minutes away from an in-network pharmacy.

Additionally, the specialty network — which is managed under both pharmacy and medical benefits to better coordinate care and manage costs — directs volume into two preferred vendors for deeper savings. This network also features varying cost-share designs to direct usage toward drugs that are safe, effective and reasonably priced.

Each of our pharmacy networks helps ensure your employees have access to the medications when and where they need them, while making your health care dollars work as hard as possible.

*Contact your sales representative to find out your potential savings impact.

Regardless of the network you choose, you'll be covered by a pharmacy program that puts value, effectiveness and safety at the forefront without sacrificing performance. **We tap into the power and efficiency of our national pharmacy program but retain local control where it matters.**

LOCAL MANAGEMENT

We manage our national network locally, which means we're able to get you even greater value.

EXPERT EVALUATION

The Pharmacy and Therapeutics (P&T) Committee determines which drugs make our Wellmark Drug List.

INDEPENDENT CHANNELS

Pharmacy benefits, specialty drug and mail order allow our pharmacy program to deliver greater value to our members.
